

March Break Program 2017

Dear Parents,

Welcome to the Fourth year of the Willingdon EDP March Break Program!

It's our pleasure to offer you options to compliment the many wonderful programs already taking place throughout the NDG community.

Willingdon children will spend their March break actively engaged in physical activities both indoors and out (weather permitting) and will exercise their imaginations while participating in the art projects, games and activities programmed by our stellar staff. Our days include guests and visiting animators and will be comprised of a dizzying array of sports, science experiments, baking, music and movies. As always you can rest assured that our programs are both age and interest appropriate.

Open to all Willingdon students, the March Break Program adheres to our familiar PED day format, and offers our children the chance to experience something out of the ordinary in a familiar place, in the company of their friends.

Please join us for any or all of our exciting adventures. We look forward to seeing you!
